Dispatches

Dispatches Inwards.

I WHEN a Ship arrives from any foreign Place, you are to be careful that the Surveyor perform his Duty, in placing Officers on board, for hindering of Imbezlements, and discovering of Concealments.

II. Upon the arrival of such a Ship; you are to acquaint us, or the Commissioners for the time being therewith, by the most speedy and certain Conveyance possible.

III. The Master of the Ship is to bring her up directly to the place of Unlading, with as much speed as the Weather and Condition of the Port will admit of, as the Law directs, *Book of Rates* page 250.

IV. The Master or Purser is to make a just and true Entry upon Oath, of the Burthen, Contents, and Lading of his Ship or Vessel, with the particular Marks, Numbers, Quality, and Contents of every Parcel of Goods therein Laden, to the best of his Knowledge; Also where, and in what Port she took in her Lading, as the Law directs, *Book of Rates* page 250, and is to observe the other Directions of the Law in this Point, *Book of Rates* page 252.

V. For your better Direction in this Point, on every Accident which may occur, you are to peruse and observe an Act 14 Char. 2d. Intituled, *An Act for preventing Frauds, and regulating Abuses in His Majesties Customs*, beginning in the *Book of Rates* page 249.

VI. The Master having made his Report upon Oath, and signed the same, attested by your Subscription and the Comptrollers, you are to keep the same on the File of Reports Inwards.

VII. The same Report you are to enter *verbatim* into your Book of Masters Reports Inwards, signed by the Master, your self, and the Comptroller, in the manner as you will find in the Book. *Appendix N° F.*

VIII. When the Merchant desires to unlade his Goods, he is to make his Entry, giving in Writing the Marks and Numbers, with the Quantity and Quality of each Parcel, distinctly shewing the Contents, which he is to sign, to be kept by you on a File, with all following Entries in their successive Numbers; Of which Entry you will find a Form in *Appendix N° 26.*

IX. The Comptroller having taken a Duplicate of this Entry, you are with him to cast up the Duties on each Branch, and to set them down opposite to their respective Articles, summing up the Amount, which the Merchant is to pay, or secure to be paid, on the Branches Bondable.

X. For your better and more easie Information in this case, you will find a Scheme of the Duties which may be bonded, with the Terms of payment allowed; As likewise the Discounts for prompt Payment in *Appendix N° 27.*

XI. When you have received in Money, and Bonds sufficiently secured, the Amount of the Duties of the said Entry, you are to draw out a Warrant for Unlading of the Goods, signed by your self and the Comptroller, directed to the Surveyor and Land-waiter, to be sent or delivered to these Officers, that they may see the Goods therein specified regularly Landed.

XII. If any Goods be unrated which are contained in the said Entry and Warrant, the Merchant is to make Oath as to the Value, and to sign the same, which is likewise to be attested by you and the Comptroller, of all which you will find a Form in *Appendix N° 28.*

XVI. Having thus dispatch't the Merchant, and put Matters in Order for the regular Discharge of the Ship, you are to post the Entries of the Goods in your Books; That you may have a clear and perfect *Idea* of this Matter, you are to consider, that the Columns requisite for all the Branches which may be paid or bonded, will be about Twenty Seven in Number, to carry so many Columns in one Book all along, would be very perplexing, and most of them would stand frequently empty.

XVII. To prevent this Inconveniency, with the Charge of Paper, and Ruling that attend it, your Book of Entries *Inwards* is divided into Four separate Classes, Folios or Forms, and in each of them are to be entred such Goods as may fill up the requisite Columns thereto relating, so as all the Branches of the Revenue may be kept distinct and clear, to answer the several Appropriations and Directions of the Law.

LXX. When you know the true Contents, then the Merchant is to make a perfect Entry, and you are to grant a Warrant in the same manner as other Entries and Warrants are done for the like Goods, posting the Entry in your Book after the usual manner.

LXXXI. You are likewise to take notice, that the Bonds for the Excise on Salt, can only be discharged by Debentures and Money, and that no Debenture is allowed on the Impost on Wines and Vinegar; So that for the regular Accompting, it's very requisite to have a Book of Bonds, with the respective Columns for each Duty, ranged into their proper Classes, Folios, or Forms.

LXXXII. In the next Place, you are to observe for a certain and standing Rule, That if any Merchant or Importer can produce a Debenture, or Certificate for Damage or Over-entry, on Goods for which the Duties have been Bonded, you are not to pay the Money, but to endorse the same on the respective Bonds.

LXXXIII. That you may know when Bonds fall due and how to keep them, and the whole Account of the Revenue in due Form, you are to take a distinct Bond, not only for the different Branches of the Revenue, but also a separate Bond for every Gale, or particular Payment of a Branch, to be kept under their successive Numbers, by which Means you shall always know when any Bond falls due, and the Merchants with their Sureties will never have their Bonds Registered or prosecuted for more than the Sum which they owe.

LXXXIV. For all the Duties Bondable whatsoever, you have a General Form of a Bond: in filling up the Blanks you are to Express the Duties, or Branch of the Revenue for which the Bond is taken, according to the Example in *Appendix N° 49.*

XCI. When any Merchant or Importer lets the Bonds run in Arrear, either as Principal or Surety, you are not to take his Bond upon any new Entry, until the Principal Sum of those already Due, together with the Interest thereon accruing, be fully paid.

XCII. That you may the more easily fill up your Monthly, Quarterly and Yearly Accounts, and find the Ballance of the Bonds remaining in your Custody to Answer with the Sums in your Account, you may keep the Bonds on each Branch of the Revenue in a separate Bundle, and therein range them, according to their Successive Terms of payment, by which means you will the more readily know when they fall due.

The Form of which Entry is in ————— *Appendix N° 54.*

II. In the next place, you are to take Notice, That by an Act 12 Cha. 2. *Book of Rates, Page 228.* It is not lawful for any persons to lade any Goods Coast-ways, on any Ship or Vessel which does not entirely belong to Subjects of *England*, under Forfeiture of Ship and Goods; Which Privilege is now, by the Act of Union, granted to all the Subjects of *Great-Britain*.

III. When any person desires to lade Goods Coast-wise, on such a Ship or Vessel, you are to grant a Sufferance, signed by your self and the Comptroller, directed to the Searcher or Land-waiter, who is to see the Goods shipt off, and to certify the Quantity, by his Subscription to the same Sufferance.

IV. In case the Goods shipt are of a foreign Product or Manufacture, liable to the Customs and Duties Inwards, the person who lades them, is to declare in what Ship they were entred, and to make Oath that these are part of the Goods for which the Duties have been paid or secured to be paid, and if he cannot declare the Vessel and Time of Importation, then he is to make Oath that the Goods were bought in the ordinary way of Trade, the Duties whereof he verily believes were paid in the manner as you will see in the Form in ————— *Appendix N° 55.*

V. Of this Sufferance you are to enter a Copy, as you will find it in your Book for Coast Sufferances Outwards in ————— *Appendix Book N° P.*

VII. Before the Cocquet be delivered to the Master of the Ship or Vessel, you are according to the Directions of the Law *Act 14 Cha. 2d Book of Rates Page 257.* to take the Master's Bond with good Security, Obliging them in the Value of the Goods to Deliver and Discharge them in the Port or Place for which they are Entred, or in some other Port or Place of *Great-Britain*, and to return a Certificate of the same in six Months. Book of Rates Page 257.* which is to be Annexed to, and Endorsed on the Bond, according to the Form Printed on the said Bond, already mentioned in the ————— *Appendix N° 57.*

XI. This Certificate of Return is likewise to be noted on the Margent of your Book for Coast Cocquets and Transfers Outwards, according to the Example thereof in the Class, Folio, or Form D.D. of the Book in ————— *Appendix N° Q.*

XII. If a Ship should enter for *London*, and Discharge in any other part of *Great-Britain*, a Certificate is to be granted by the Collector and Comptroller there, and will be sufficient to clear the Bond.

XIII. In case the Ship perishes at Sea, or is taken by Enemies, an Affidavit thereof is to be made

made before the proper Judge, and brought to you to be entred in the Book, annexed to the Bond, and Endorsed thereon, instead of the Certificate.

XIV. You are to take special notice, that all Coast-Bonds with their Certificates or Affidavits, are to remain in your Possession, and not to be cancelled, but to be transmittted to us yearly the 25th of December, together with those remaining undischarged after the Expiration of the six Months, to be lodged in the Exchequer.

IV. when the Master for discharge of his Bond, demands a Certificate of Return, you are to note the same in the Margent of your Book, opposite to the relative Article, as you will find it done in your Book of Coast-Cocquets and Transfers Inwards before mentioned *N° Q.* in the Class, Folio or Form *E. E.*

V. This being done, you are to furnish the Master with a Certificate of Return, according to the Form in *Appendix N° 58.*

VI. When a Ship discharges at several Ports, the Quantity of Goods unladen are to be Endorsed upon the Cocquet, and signed by the Collector and Comptroller of the respective Ports, and so delivered to the Master, who at the last Port of Discharge, is to get a Certificate of Return for the whole Quantity of Goods, signed by the Collector and Comptroller of that Port, who are to specify the Quantity of Goods landed at each Port, and every Collector is to set down in his Book of Coast Cocquets and Transfers Inwards, the Quantities of Goods discharged at his Port, in the Manner and Form already directed for Ships that discharge their whole Lading.

Land Tranfires Outwards.

I. **W**hen any person desires to pass by Land Carriage Goods to be accompanied with a Tranfire, you are to inquire when, and out of what Ship the Duties were paid for the same, and if you have reason to suspect the Truth of such Declaration, you are to take his Oath, that the Goods he now demands a Tranfire for, are part of the same Goods for which the Duties were so paid Inwards, and to grant him a Tranfire accordingly.

II. If the person that desires the Tranfire cannot tell when, or out of what Ship the Duties were paid Inwards, then you may take his Oath, that he bought all those Goods in the ordinary way of Trade, and that he verily believes the Duties of the same were paid at Importation, which is to be Endorsed on the back of the Tranfire you then grant, of which you have a Form in *Appendix N° 59.*

III. Before you deliver the said Tranfire, you are to record the same in your Book for Land-Tranfires Outwards, after the manner you will see it done in the Class, Folio, or Form *F. F.* in the Book in *Appendix N° R.*

IV. If any person desire a Tranfire for Goods for which he alledges the Duties were paid at Importation before the first day of *May* last, you are to call for the Original Sufferance, which you are to keep in your Custody on a File for that purpose, and to grant him from time to time Tranfires for such part of the same as he desires, always taking his Oath, that the Goods you then grant him a Tranfire for, are all part and Parcel of the Goods specified in the Original Entry aforesaid, and that the Duties then due and payable were accordingly paid or secured.

Land Tranfires Inwards.

When any Merchant Ships off Goods for which the Duties were paid at Importation in some other port, he is to produce you a Tranfire for them from the said Port, which you are to enter in your Book for Land Tranfires Inwards, according to the Example you find in the Class, Folio, or Form *G. G.* in the Book in *Appendix N° R.*

IV. If any Officer Dies, is Remov'd, Dismiss'd, or has been absent without leave, you are instantly to give Us a particular Account thereof, and in such case, they are only to be paid for the time they have actually Served, so that the Money short paid them of the Article in the Establishment may be set down in the Respective Column Opposite to their Names.

V. The Sum of this Column of short payments is to be Deducted out of the Total Sum of the Establishment, and the Remainder, (being the Net Money paid by you that Quarter) you are only to take Credit for, in your Account or Abstract, on the Branch of Customs.

VI. If you have not Money in your Hands arising from the Customs, sufficient to pay the Sallaries, you are to desire Our Order for supplying of the same.

IV. The Officers are to Vouch the Incidents properly belonging to their Place, *Viz.* The Comptroller is to Certifie all Payments whatsoever.

VIII. For keeping of this Account of Incidents Regularly and with Ease, without the trouble of loose Papers, all particulars are fairly to be Entred therein, with the Receipts of the Persons, and Subscriptions of the Officers according to the Form in *Appendix N^o 61.*

IX. In Regard that this Account is to be sent to Us, for Approva^l, for passing as a Voucher in the Discharge of your Account, to prevent all Inconveniencies which may Arise by Mis-carriage on the Road, you are to keep a Duplicate thereof, Signed by your self, the Comptroller and Surveyor, making mention of the Day when the Original was Transmitted.

Remittances to the Receiver General.

I. **W**hen you Receive Money upon any Branch of the Revenue, you are with all possible speed to pay or cause the same to be paid to *Charles Graydon* Esquire Receiver General of Her Majesty's Customs at *Edinburgh*, to whom you are to give Advice of the Branches to which the Money is to be Applied.

II. In Remitting or paying of Money to the Receiver General or his Successor, you are at the same time, to give Advice thereof to Mr. *John Crookshanks* Comptroller General or his Successor in that Office, specifying the Branches to which the Money is to be Applied, and giving him an Exact and full Copy of the Bills remitted.

III. When you can with Conveniency have secure Bills to Remit for each Branch of the Revenue distinctly; it will be the best and clearest way to apply these Bills to the Respective Branches by your Endorsement thereon.

IV. When Exchequer Bills are given you in payment of Duties, or when Bank Bills offer for Remittance, and the Sums of them Amount to more than what you have Received on one or more Branches of the Revenue, you are to make a Distribution of these Bills, and accordingly to Advise the Receiver General and the Comptroller General, the Sums which upon this Distribution are to be Applied to the Respective Branches for your Discharge.

V. That your Business may be kept in Order, and that the Persons Bound in any Bill may always be known, you are to keep full and Exact Copies of the Bills, under their Successive Numbers, according to the Form which you have in the Book in *Appendix N^o M.*

VI. That your payments and Remittances, in Reference to the Branches, and in conformity to the model of your Abstracts and Quarterly Accounts, may always appear Distinct and Clear, you are to keep a Book of Remittances to the Receiver General, wherein you are to Enter the several Bills, with their Sums in the Respective Columns of the Branches to which they are Applied, according to the Form you have in the Book in *Appendix N^o N.*

VII. You are to take Notice, that if you detain any of the Money in your Hands Received on any Branch of the Revenue, you are Chargeable for the same after the Rate of Twelve per Cent. per Annum, and what further Damage may accrue by your Neglect, according to the Direction of the Law, in an Act 20th. Cha. 2d. Chap. 2d. Intituled, *An Act for the better payment of Moneys Received for the use of the Crown, Book of Rates Page 695.*

VIII. If at any time a Bill should be returned with Protest, you are to keep a particular Account thereof, in the Form of an Account Current, and under the Title of *Bills Protested*, and that the Branches of the Revenue may not be Charg'd with more than is Actually paid, you are to keep this Account in three Columns, one for the principal Sum, the second for the Charge of the Protest, and the third for the Interest that may accrue and be recovered from the drawer, so that upon the Credit side the Bill return'd, with the Charges is to be Posted, and the Interest when received to be added in the proper Column.

IX. You are immediately, and without loss of time after the whole is recovered, to pay or cause to be paid in Money or in Remittances the whole Amounts Exactly to the Receiver General, Advising him, and the Comptroller General, that this is in place of the Bill or Bills returned, and that the Principal Sum is Applicable to the Branches formerly Advised, that the Surplus is for payment of the Charge, and when Interest is received, it is to be Applied to the respective Branches of the Revenue on which the Bill was returned, and accordingly you are to Charge your self for the Money Received and Interest, and to Discharge your self by that part of the Remittance in your Monthly Abstract, and Quarterly Accounts, in your Books and the Branches of the Revenue will remain Clear.

The close of the Accounts.

I. **T**hat it may appear what Money and Bonds remain in your Hand, you are every Month to send us, or the Commissioners for the time being, a Monthly Abstract, according to the Form in the *Appendix N 62*.

II. That you may comprehend the Reason and Method of this Abstract, you are to take notice

1. That all the Branches of the Revenue are ranged in successive Order.
2. That under the Title of Customs are comprehended the Old Subsidy Outwards and Inwards, Petty Customs, the Additional Duty, and the composition on petty Seizures.
3. That this Abstract is formed by way of Debit and Credit, the first whereof is Intituled *The Charge*, and the latter, the *Discharge*, which are distinguished by remarkable Lines shewing the general Divisions.
4. That the *Charge* or *Debit-side* on the left Hand, consists of Money and Bonds upon the preceeding Ballance, and on the present Receipt.
5. That the *Discharge* or *Credit-side*, on the right Hand, consists of Sallaries, Incidents, Portages, and Corn Debentures (which are alwise paid out of the Customs) then follows other Debentures, Damages, Overentries, and Discounts made good by you in Money, or upon Bonds, in the respective Columns: The last Article being Remittances on each Branch, to the Receiver General.
6. That from hence will naturally and clearly result the Ballance due to the Queen in Money and Bonds.
7. But in regard that you are charged with all the Bonds, and may receive the Total, or part thereof in Money, for making the same appear, and for ballancing of your Account of Cash, and that the Abstract in every Branch and Article may be compleat and demonstrable, there is a Column kept for Money received on Bonds, the sum whereof being brought at once into the general Column of Bonds on the *Discharge-side*, and into the general Column of Money on the *Charge* part, it disposes your Abstract for a general Ballance, and saves all manner of Substractions.

III. In regard it may happen that upon the Customs, or any other Branch of the Revenue, you may overpay, in which case the *Credit-side* of the Abstract will surmount that of the *Debit*, and the Account would never ballance; for a remedy of such an Inconveniency, and for keeping the Accounts of the Revenue distinct on every Branch, without setting down more than is actually received or paid thereon, you have a Column on the left Hand towards the Margent of your Abstract

XI. This will appear more plain to you by the Method which you are to observe for the Money, viz.

1. You are to sum up the Money on the *Present Receipt*, setting it down at the foot of it's proper Column, and carrying it at the same time from thence, on a direct Line to the right Hand, into the general Column of Money, under the Title *Receipts*, as you will find it in the sum of L. 1641 19 9½
2. You are to sum up the Money on *Last Ballance*, setting it down at the foot of it's proper Column, and carrying it at the same time from thence, on a direct Line into the said general Column of Money, as you will find in the sum of L. 180 00 00
3. These two Sums being added together, make up the Sum of your Charge in Money, as you will find it in the Sum of L. 1821 19 9½
4. Under this you are to place the Money received on Bonds, as you will find it in the Sum of L. 91 02 06, which will make up the Total Sum of your Cash.
5. If there be any Over-payments, you are to sum them up, & set them down in their proper place; carrying the Amount from thence in a direct Line into the said general Column of Money, which when all three are sum'd up together, will answer the Total of Money, as you will find it in the Sum L. 1943 02 03½. And the Reason side of the thereof will appear more plain, when you come to fill up the Discharge or Credit-Abstract.

XII. For the *Discharge-side*, You are upon the Branch of Customs to fill up the Column of *Sallaries* when any are paid, for which you will have a Form in the Establishment, which will be transmitted to you, with our Orders and Subscriptions thereto, the Total whereof you are likewise to set down in the place for the Sum of Sallaries.

1. You are to observe that the remaining part of this Column serves for the general Column of Money paid, as you will see by the Articles and Sums there plac'd under the Title of *Payments*.
2. The next Column is for *Incidents*, for which you have a Form in *Appendix N° 61*. Which being cast up, you are to place the same in it's proper Column to the Branch of Customs, the Total you are to set down at the foot of this Column, at the same time carrying the Sum on the direct Line to the left Hand, into the general Column of Money paid on the Article of *Incidents*, under the Title of *Payments* aforesaid.
3. Your next Column is for *Portages*, which when paid, are to be placed on the Branch of Customs, and the Total brought down to the foot of the said Column, and from thence to be carried on a direct Line to the left Hand, into the aforesaid general Column of Money paid, and placed to the Article of *Portages* there, as you will see it done in the Sum L. 02 02 08.
4. The next Column is for *Corn Debentures*, for which you are to look in your Book of *Debentures N° E.* in the Class Folio or Form *F.* And from thence you are to take the total Sum of what has been paid, and to place it on the Branch of Customs in the respective Columns, in the proper place, whereof the Sum is to be set down, and by a direct Line to be thence carried to the left Hand, into the general Column of Money paid, and placed to the Article of *Corn Debentures*.
5. For your other four following Articles, viz. *Other Debentures, Damages, Overentries, and Discounts*, they are discharged in Money or Bonds, for which Reason, each of them hath a double Column, and are placed to the respective Branch of the Revenue, on which they have been allowed; so that one Example upon either of them will be a sufficient Instruction for placing of all the rest in due Method.
6. Thus for *Debentures*; you are to take your Book of *Debentures*, and to sum up the several Columns in all the four Classes, Folios, or Forms, setting down the Titles on a piece of Paper prepared for the purpose, and under these Titles, you are to set the Sums of the respective Columns in the several Classes, Folios, or Forms, and so bring these Particulars to a distinct Total, according to the following Example.

Book N ^o D	Class Folio or Form	A. B. C. D.	Old	Additional Duty	
			Subsidy	Paid	Bonded
			05 00 10 ¹ / ₂	00 00 00	00 00 00
			39 11 08	36 12 03 ¹ / ₂	39 11 08
			02 12 00	00 08 06 ¹ / ₂	00 09 06
			32 16 08	24 08 09	26 08 04
			80 07 02 ¹ / ₂	61 09 07	66 09 06
			61 09 07		
			141 16 09 ¹ / ₂		

Which Sums you are to place on the Branch of Customs in the Respective Columns of Money and Bonds, as you will see it done under the Title of other Debentures in the Abstract.

One other Example on New Subsidy may suffice, *Viz.*

Book N ^o D	Class Folio or Form	A. B. C. D.	New Subsidy	
			Paid	Bonded
			10 13 09	0 00 00
			38 11 10 ¹ / ₂	39 11 08
			03 11 03	0 00 00
			52 16 08	0 00 00
			105 13 06 ¹ / ₂	39 11 08

Which Sums you are to place on the Branch of *New Subsidy*, in the respective Columns of Money and Bonds, as you will see it done under the Title of *Other Debentures* in the Abstract.

XIII. Tho' for the clearness of the Example, they are set down separately, yet for your ease in working, you may upon the Paper range them all beside one another, as they are in your Book, augmenting your Columns as you find them increase, after you have done the general Goods, and so the total Sum of each Column is to be carried to the respective Branches of the Revenue at once into the Abstract, only on Customs, the *Old Subsidy*, *Petty Custom*, *Additional Duty*, ar to be added together, and the Amount thereof, whether in Money or Bonds, is to be carried to the Branch of *Customs*, in their proper Columns.

XIV. For your Remittances to the Receiver General, you are to turn to your Book N^o N. and on a Paper to cast up the several columns, carrying the Total at once to the respective Branches into the Column of Remittances to the receiver General, as you see it done in the Abstract.

XV. Having thus filled up the Particulars on the *Discharge-side* of your Abstract, you are to begin with the General Column of *other Debentures*, casting up the Column of *Money*, putting the Sum in its proper place: In the like manner you are to do with the *Bonds*, carrying the first on the direct Line to the left Hand, into the general Column of *Money paid*, and the latter in the same manner, to the general Column of *Bonds*; and so for all the rest, according to their respective Places and Titles.

XVI. By this Means, the *Discharge* or *Credit-side* of your Abstract will be prepared: But before you proceed to take the Ballance, you are to look into the *Book of Bonds*, to see what Money you have received, which is to be placed to the respective Branch of the Revenue, in the Column of Money received on Bonds, of which you have an Example on the Impost on Tobacco, taken from the Class, Folio or Form T, in your *Book of Bonds* N^o L, in the Sum of L. 91 01 07¹/₂.

XVII. When you have done after this manner with your Book of *Bonds*, for all the other Branches, then you are to cast up the Column of Money received on Bonds, setting down the Sum in its proper place, at the same time carrying this Sum in a particular manner, by a direct Line to the left Hand, into the general Column of *Bonds*; as you will see in the Sum of L. 91 02 06.

XVIII. Thus your Abstract is prepar'd for a particular Ballance of every Branch, and for a general Ballance on the whole, which in every Point must agree, otherwise your Account will be Erroneous.

XIX. That you may know how to form the Ballance on the particular Branches, you are to set down in a Paper the *Charge* or *Debit* of *Money* and *Bonds* in two Columns, opposite to which in their respective places, you are to set down the Articles of your *Discharge*, the Amount whereof being deducted from the *Charge*, the Remainder or Complement is the Ballance in *Money* and *Bonds*, according to the following Examples.

<i>Customs.</i>			<i>Customs.</i>

			Ballance--	14 05 00
				12 02 09
				26 07 09

Which are to be placed in their Respective Columns, and the same Method will serve for all the rest of the Branches, only for the greater Expedition, you may range them beside one another on a sheet of Paper prepared for the Purpose.

XX. When the Sums *Due to the Queen upon the Ballance* in Money and Bonds are thus set down in the Abstract, you are to cast up the Money, setting down in the proper Place the Sum thereof, which upon the direct Line is to be carried on the Left Hand into the General Column of Money Paid, as you will see in the Sum L. 243 11 11 $\frac{1}{2}$.

XXI. In the like manner, you are to Sum and carry the Amount of the Ballance in Bonds, into the General Column of Bonds, as you will see in the Sum L. 379 09 00.

XXII. This being done, if your Accounts and Calculations be Right, The Total of your Receipts and Payments in Money, the Ballance included, will Agree exactly as you see in the Total Sums of Money L. 1943 02 03 $\frac{1}{4}$.

XXIII. In the like manner, The Total of your Receipts and Payments on Bonds, the Ballance being Included, will exactly Agree, as you will find in the Sum L. 798 15 10 $\frac{1}{2}$.

XXIV. Upon this Method of Accompting, you may Observe, that there is a Checque upon every Branch of the Revenue, because the Ballance thereof on the one Hand, and the Over-payments on the other must make up the entire Sums, and the Ballance of Money must make up the entire Sum of Money Received, and Consequently the Ballance of the Bonds will make up the entire Sum of the Bonds, which is a Demonstrable Proof that every thing is Right.

XXV. For a further Checque, you will find that this will also Agree with the Accounts in your Book of Bonds in *Appendix N^o L*, as likewise in case of Over-payments, the Sum thereof must make up the Total of the Cash or Money Received, to Correspond exactly with the Total of the Money paid, the *Ballance* Included.

XXVI. As to the Account of Bonds remaining in your Hands, due to the Queen upon the several Branches of the Revenue, the Form thereof on the Back of the Abstract, is plainly Demonstrable, because it must Correspond exactly with the Sums on the Respective Branches in the General *Ballance*, as likewise with your Book of Bonds, what remains thereon to be Explained is, that the Circumflexed Lines or Braces on the Left Hand in the Column of Number, shews you the Different Bonds taken upon the Same Duty, at several Sales or Terms of Payment.

XXVII. By this Method of Accompting, it will readily Appear, what Bonds are due on every Branch of the Revenue, and when they are payable.

XXVIII. As for the Account of Remittances to the Receiver General, and the Plantation Bonds, the Form is so easy upon the back of the Abstract, that it requires no Explication.

XXIX. This Abstract with the Account of Remittances and Bonds on the Back thereof, are to be severally Signed by your self and the *Comptroller*.

Dispatch of the Accounts

- I. **A**T the time mentioned in your general Instructions, you are once every Month in the year to send us a Monthly Account or Abstract, perfected and signed in the manner already directed.
- II. When Quarter-day approaches, you are to require the Land-waiters to bring in an Account of all the Goods short entred, that perfect Post-Entries thereof may be made, and that so the payment of their Sallaries may not be stopt.
- III. At the end of every Quarter in the Year, you are without loss of Time to transmit to the following Papers and Accounts, *viz.*
 - The Masters Reports Outwards } which were kept on Files.
 - The Masters Reports Inwards. }
 - Exact Duplicates of the*
 - Book of Merchants Entries Outwards.
 - Book of Merchants Entries Inwards.
 - Book for the Excise on Salt Imported.
- IV. These Duplicates are to be *Sum'd, Examined, and Sign'd separately*, and brought to a Total at the end of your Book of Entries Inwards, after Examination of the whole by your self, the Comptroller and Surveyor, who with you are to sign the Quarters Account, according to the manner which you will find in the Class, Folio, or Form *K.* in your Book of Entries Inwards, in *Appendix N^o G.* The Amount whereof makes the *Charge* or *Debit-part* of your Account.
- V. Having dispatched this part of the Account, the Bills on the Files and the Warrants which have been examined and Confronted, are to be by you placed in Order, and laid up in some convenient Repository in the Custom-house, to be there preserved.
- VI. For your full Information in bringing your Books to a Total, and for keeping you from any precipitant Error, in filling the Quarter Account or Abstract, you are to take notice, that in the first place, the *Old Subsidy Outwards* is to be there inserted, and the Composition on petty Seizures in their place, that the Article of *Customs* may be compleat, which is not so in bringing your Books of Entries to a Total, because the Sum there consists only of what has been received upon the Articles of *Customs Inwards*, and nothing can be there properly included or sum'd, that is not comprehended in the *Entries Inwards*, registred in the said Book.
- VII. Upon the approach of each Quarter-day, you are to advertise every Person who hath any Dependence on the Customs, to bring in their Accounts seasonably to be Examined, Paid, and

and duly vouch'd, That the *Discharge* or *Credit-part* of your Account may be regularly passed with the Comptroller General, for which purpose, you are to transmit to him the following Vouchers.

The Establishment for the Sallaries, with your own and the other Officers Receipts thereon.
The Account of Incidents, with the Receipts in the manner directed.
Portage-Bills, with the Masters Receipts thereon.
Corn Debentures paid, with Receipts thereon.
Other Debentures paid, or Indorsed on Bonds, with Receipts.
Certificates of Damages, with Receipts thereon.
Certificates of Over-entries, with Receipts thereon.
Receipts for Discounts.

Ranging them all in their proper Order and successive Numbers.

VIII. When Bundels are of too great a Bulk for the Post, you may convey them by the means of the Surveyor General and Riding Officers; taking a Receipt for the Pacquet from the person to whom you deliver them, advising him to do the like with the other Officers, that in case of Miscarriage or Delay, we may know who is the person blameable.

IX. The Model of the present Monthly Account or *Abstract*, will serve you for a Quarterly Account current, because the three Monthly *Abstracts* being added together, as to the *Charge* and *Discharge*, must make up the Sum of the Quarter Accounts; As likewise the Sum of the Money received upon Bonds, from thence will naturally and clearly result, that the Ballance due to the *Queen*, in Money and Bonds, in the Quarterly Account must be the same on every Branch, and in the Total, as it is in the last of the three Monthly *Abstracts*. For this Reason, you are every Quarter Day to send two of these *Abstracts*, One Intituled *The Monthly Abstract*, and the other, *The Quarterly Account current*.

X. By the same Rule of Proportion, the Model of this *Abstract* will serve you for a yearly Account current; Because the four Quarterly Accounts current being added together, as to the *Charge* and *Discharge*, must make up the Sum of the Years account current, As likewise, the Sum of the Money received upon Bonds: from thence will naturally result, that the Ballance due to the *Queen* in Money and Bonds in the Yearly Account, must be the same on every Branch, and in the Total, as it is in the last of the Twelve Monthly *Abstracts*, and in the last of the four Quarterly Accounts current.

XI. You are once every Month, at the times prescribed in the General Instructions, to draw out, and Transmit to Us, the following Accounts, Signed by your self and the Comptroller, viz.

An Account of all Ships clearing Outwards to Foreign Parts, with the Particulars of their Cargoes, in the Manner and Form in *Appendix N° 64.*

An Account of all Ships Entering Inwards from Foreign Parts, with the Particulars of their Cargoes, in the Manner and Form in *Appendix N° 65.*

An Account of all Ships Clearing Out Coast-wise, wherein you are to range some particular Goods in their Proper and Respective Columns, and the rest of the Cargo is to be inserted in the Column on the Right Hand, under the proper Title, in the Manner and according to the Form in *Appendix N° 66.*

An Account of all Ships Entering Inwards Coast-wise, wherein you are likewise to range the Goods there Particularly specified, in their Respective and Proper Columns, and the Remainder of the Cargo is to be placed in the Column on the Right Hand, under the Proper Title, as you have it in the Form in *Appendix N° 67.*

XII. When any Accident happens, whereon special Directions may be Necessary, for the Regular Observance of the Law; upon Notice thereof, We shall give you a punctual return.

XIII. You are to take Notice, that the Laws which are now the Standard of Trade and Duties, have been Enacted with very great Tendernefs towards the fair Trading Merchants, with great Encouragements to Industry, and that the severities intended, are for the prevention of Frauds, which can only be Committed by Men of bad Principles, and Destructive to the Common good, who by eluding the Intention of the Law, would in so far render the supplies Ineffectual, and tho' their Frauds do immediatly affect the Revenue, yet in Fact and Consequence,

Consequence, they touch the property of every Loyal Subject, who upon this Consideration will find their Interest in having illegal Practices of this Nature prevented, or Punished when Committed.

XIV. By these Laws, you are entrusted with the Administration of Oaths, which you are to Execute, with Reverence, in a decent manner, that the persons who Swear may consider the Consequence of an Oath in Attesting the Omniscient God to be the Judge of their Deposition.

XV. For the Cheerful and Punctual performance of your Duty in the present Employ where-with you are entrusted, you have an Essential Encouragement from the Reasonable Hopes of such further Advancement as you shall be found capable of upon the Representation of your Behaviour, to the Lord High Treasurer of *Great-Britain*, who is a Lover of Method, and an Encourager of Virtue, under whose immediate Direction We are *by the Queen*, entrusted with the Management of this part of the Revenue.

XVI. If any thing can Effectually excite you to Vigilance & punctuality in the performance of your Duty, it is the further Consideration of your being Employed in the Service of the Queen, to whose Goodness and Wisdom the Subjects of *Great-Britain* owe the compleat Enjoyment of their Happiness; And are engag'd to wish that Her Reign may be Long and always Successful.
